

2010 Blind Trust Red

If you are really curious about the blend, just **blind taste the Blind Trust** and try to guess the varietals before disclosing the assets which are kept under wrap and seal of the capsule.

Caution: Spoiler ahead! Since the barrels for Portfolio and Blind Trust are treated exactly the same for the first 15 month, the selection process is a lot like asking which of your children do you like the best. Tough decisions indeed. This year's blend shows a lot of finesse and elegance with spicy dried cherries and high notes of cranberry, nutmeg and eucalyptus.

62% Merlot, 17% Cab. Sauvignon, 15% Malbec and 6% Syrah.
