## About Laughing Stock Vineyards

Located on BC's picturesque Naramata Bench, **Laughing Stock Vineyards** is a serious enterprise with a lighthearted attitude. And with a name like Laughing Stock, we wake up everyday with the motivation of not living up to our name.

Previous to Laughing Stock, both David and Cynthia Enns led conservative, methodical, and calculated lives in the Financial Industry. In 2003, we did the unfathomable; we followed our hearts, and bullishly invested everything into the wine industry. An emotional decision that our pinstriped peers thought was ... fiscally foolish, and financially unwise.

We strive to produce some of the highest quality wines in the Okanagan Valley. It's what we do.
